of Controllers

Announcement - ICV Newcomer Award 2024

Dear professors,
dear authors of the final theses,

the International Association of Controllers (ICV) is once again offering the "ICV Newcomer Award".

The ICV Newcomer Award aims to promote the next generation of academic controllers and to transfer innovative and practicable ideas from the university to controlling practice, thus making them accessible to a broad controllers' community.

Prizes will be awarded to three master's theses or outstanding bachelor's theses that address both controlling innovations and classic controlling topics in the application. In addition, it is desired that the authors of the submitted works deal with the basic positions of the ICV or their critical discussion.

The call for papers covers papers submitted to a European university after April 30, 2022.

Eligible to nominate for the ICV Newcomer Award 2024 are both the supervising professors and the authors of the theses. We would like to cordially invite you to submit prize-worthy theses with the complete application documents to us. The **deadline for entries is May 15, 2024**. The submitted papers can cover the entire spectrum of controlling and be written in German or English.

For the jury - consisting of practicing controllers and university representatives - the scientific nature, the degree of innovation and the derivability of implications for controller practice are the focus of their decision.

The ICV Newcomer Award is sponsored by **Haufe** and the **Haufe Academy** with a total of **EUR 4,000**. In addition, the award winners receive a personalized digital badge for free use and a free membership to the ICV for one year, which includes a subscription to Controller Magazine.

The award ceremony for the ICV Newcomer Award is expected to take place at an ICV event in autumn 2024. The date will be finalized at the beginning of the 2nd quarter of 2024. **We hope that the awardees and their supervising professors will make their work available to a wide audience in the various ICV media.**

On the attached overview sheet the key data are summarized again. The announcement and the application form are also available for download at www.icv-controlling.com/de/verein/icv-awards/icv-newcomer-award.

We look forward to your participation and are eager to receive innovative and practicable controlling ideas.

Let's support the next generation together!

Yours sincerely

Matthias von Daacke
Vice Chairman of the ICV Board

Prof. Dr. Nicole Jekel / Prof. Dr. Christoph Binder
Chairpersons of the Jury
