

Controlling Excellence

OUR VISION

*WE shape the future
as the Voice of Controlling Excellence!*

OUR MISSION

*As a leading network,
we combine innovative and
practical solutions –
future-oriented and effective.*

*Together we live and support
the international community –
with a passion for controlling.*

OUR PURPOSE

*Come together!
Work together! Grow together!*

The ICV is more than a platform –
we are a Community that lives
modern controlling with heart,
attitude, and excellence.

Your options are diverse

- stay up to date
- learn lifelong
- boost your career

OUR VALUES

Empowering people

Students, Young & Senior & Silver Professionals
and Executives – WE accompany you in your personal
and professional development.

Sharing controlling know-how

WE promote open exchange and a culture
of learning with and from one another.
The transfer of knowledge between science and
practice is particularly important to us.

Promoting innovation

WE connect bright minds, create impulses and
actively drive the development of modern controlling.

Taking a stand

WE want to give controlling a voice
in the public eye and become involved early
on in the development processes of laws,
standards and regulations.

Ensuring success

WE contribute to the sustainable
financial success of companies through our
commitment to efficiency and resilience.

Thinking holistically

Think strategically, understand opportunities
and threats, and create sustainable value:
WE look beyond finance.

Showing integrity

Transparency, fairness and respectful
treatment are important to us
and are evident in our actions.

Living diversity

True strength lies in diversity.
This is what distinguishes the ICV Community.

Appreciating volunteer work

WE value volunteers at ICV
with great appreciation and promote a spirit
of togetherness that thrives
on commitment, trust and fun.
